Digital Shadows SearchLight™

The industry's most comprehensive digital risk management for your organization

Digital Shadows SearchLight service is more than just a threat feed. Our analysts are an extension of your team, providing expert insight, coverage, and tools to comprehensively protect you from digital risks. They support our scalable data analytics engine and provide context around all incidents, remove false positives, and fully manage takedown requests from start to finish freeing up resources internally, all for about the cost of hiring one full-time employee.
